PROFESSIONAL SUMMARY

RPA Developer & Automation Specialist with 4+ years building production automation with Power Automate Desktop and Cloud, integrated with Python for data processing and business logic. Experienced in REST APIs (JSON, OAuth 2.0), SAP GUI automation and ETL for Tax and Customs operations, with a focus on reliability: logging, error handling and resumable runs.

PROFESSIONAL EXPERIENCE

RPA Developer & Automation Specialist – Elvalhalcor (Viohalco Group) — **Jun 2022 – Present**

Responsible for enterprise process automation, ETL development and SAP integrations supporting Tax and Customs operations.

Tech: Power Automate Desktop · Power Automate Cloud · AI Builder · Python · REST / OAuth 2.0 · SAP GUI Scripting · Power Query · Git

SELECTED ACHIEVEMENTS

Matching Invoice with MRN through AADE AES

- Integrated the AADE AES REST API (OAuth 2.0, JSON, pagination) with SAP data to identify unmatched export invoices.
- Automated batch MRN entry into SAP (~300 entries per month): 95% less execution time, 100% data accuracy.

Import Customs Declaration Processing

- Reconciled ICISnet against SAP to identify unregistered import declarations, including any the customs brokers failed to send.
- Automated XML processing, SAP posting and PDF attachment; rebuilt from PAD in Python with SAP GUI Scripting for unattended, confirmed postings.
- Achieved 30% reduction in execution time and 100% data accuracy.

Customs Compliance Documentation Submission

- Automated splitting of consolidated Excel into individual PDFs, retrieval from SAP and submission to ICISnet with SAP status update.
- Implemented fault-tolerant resume logic ensuring continuity after interruption.
- Achieved 50% reduction in execution time. 2,240 entries for 2024 completed in 1 month instead of 2.

AI Document Data Extraction for Customs Broker Declarations

- Combined Power Automate Cloud & Desktop, AI Builder prompts, Python and APIs.
- Extracts declaration data from brokers' documents automatically, replacing manual entry.

Supplier Invoice Reconciliation Engine (Matching Report)

- Built multi-source reconciliation across ELVALHALCOR datasets with 5-category matching on VAT ID, date, amount and reference.
- Detected additional unmatched transactions not identified by the existing company mechanism.
- Automated the SAP data collection (vendor line items, supplier master) via SAP GUI Scripting.

Employee Company Car Tax Calculation

- Automated vehicle data extraction from supplier files and SAP account movements; per-employee taxable amounts with 100% calculation accuracy.

Reliability & Monitoring across the Automation Suite

- File logging with per-step timing, error screenshots, cross-process SAP locking and credentials in Windows Credential Manager.

Distributor & Sales Assistant – Aspida Dianomes S.A. — **May 2019 – May 2021**

- Distribution operations and client payment reconciliation.

Junior Category Manager (PPE) – Würth Hellas S.A. — **Jun 2016 – Jul 2017**

- Created and launched the company's PPE product category, contributing to 90% year-over-year revenue growth.
- Developed pricing strategy, negotiated with suppliers and trained a network of 160 salesmen on new product activations.

ACHIEVEMENTS & ACTIVITIES

- 1st place – Strategic Marketing & B2B Marketing Competitions, AUEB — **2014**
